Customer Reviews

My 8 year old son LOVES this series, it is well written and entertaining. It is a pretty easy read for a chapter book but it keeps his interest as Galaxy Zack explores the planet of Nebulon and has adventures.

I am 8 years old and I really enjoyed this book! I thought it was great to experience the adventures. It is an awesome feeling when you really start imagining. It is really fun because Zack is from another planet and when you really start imagining you can be to! It has pictures. And it is also

based on the future. If you enjoy dogs then great- Luna, Zack's dog, is a big part of the story! It is a great fun to read chapter book. I would recommend reading the books starting with number one because at the end of each book the next one starts. So if you like imagining this is the right book for you!!!!

These are fun books and my six year old loves them. He enjoys reading about other galaxies. It's a very imaginative book. I recommend the series they teach how to be a good friend.

My 8 year old loves these books and reads these for fun. He actually chooses to read Galaxy Zack during his leisure time oppose to eyes deep in an Ipad or Xbox!

Grandson loves this. Granted a lot of duplicate stickers, but the best superheros sticker book I found.
