Customer Reviews

I use this set of books because they are what my piano teacher chooses to teach from. I enjoy most of the songs, but there are some that are grueling to play. They are in there to teach dexterity, so I understand that they are necessary for development. I would prefer to learn from an adult beginner book, but these work just fine for my level of learning. These would be great for older children or younger adolescents. The seller was very prompt in delivery, and very accurate with the description of the product. I would recommend both the product and the seller to friends. Overall very happy with the purchase.

In fact, it's EXACTLY like an extension to lesson one. Seriously though, it's the logical next step after lesson one. If you liked the first one, you'll like this one.

I love the way these books are set up. We completed the lesson level 1 book last year. I was able to easily set up lessons for my homeschooler to include this as an accepted course for her electives.

I use this when I teach private piano students, and it is a great book. It is easy to use, and helps the student learn with their songs and how they explain things!

Easy to learn from and teach out of. Currently using for my 7 year old and it's fairly easy to comprehend on her own...very little explanation needed. She is young beginner

Piano teacher recommended. Son is learning how to play piano and enjoys the music in the book!
