My neighbour is teaching my daughter piano. She herself started to learn when she was very little and so did her older sister. Both used Alfred's back then and she still uses it for my daughter today. We went through 2 books so far and I am amazed how wonderfully my daughter plays already. I had to order a bunch more as my neighbour is teaching 5 of my daughters friends now also. They all use the Alfred books at different levels and love their piano lessons :o)The great thing is that you look at the age or level of the student and you pick the appropriate Alfred's book level. The next book builds on and so on. Great system!

Our daughter started using this book two months ago and is progressing well. She started in the orange beginner books. Very easy and lots a fun songs for her to work on.

Easy to follow for my young boys! Their piano teacher highly recommended it and so do I! Great set of books.

Alfred method is fantastic for beginning piano lessons. Very affordable as well
