One Family

Synopsis

Just how many things can "one" be? One box of crayons. One batch of cookies. One world. One family. From veteran picture book author George Shannon and up-and-coming artist Blanca Gomez comes a playful, interactive book that shows how a family can be big or small and comprised of people of a range of genders and races.

Age Range: 4 - 8 years

Grade Level: Preschool - 3

Customer Reviews

Interesting book that is a counting book with no numerals. Strange that it seems to work but the main focus is on the collection of varied people who make up the one family: various ages - intergenerational, people of color, etc. Children reading this book will count the items in the pictures which mostly adhere to the number being discussed, but sometimes not. Altogether an interesting book for reasons that have nothing to do with counting.

What a lovely counting book - which is really a book showing some of the many diverse configurations that can make up a family. My kids loved the illustrations. Together we tried to think of families we knew that were similar to the ones depicted.

I thought this story dealt with diverse families but it's more of a counting book. Cute illustration but not what I was hoping for.

As a mixed race family we like to find books that feature characters of different races. We love this book because even the families look like ours! We hope our child is accepting of all kinds of families and this book supports that. She loves it and so do we.

My 3 yo grandson had his little mind blown when he read it, and keeps re-reading.

This is an incredibly sweet story about how families can all look very different. I love the artwork and that the story is timeless. Definitely a great addition to any child's library!

Such a sweet book! Glad our library got it into their rotation, but I'm still going to buy a copy for us!

Lovely pictures, simple text, and inclusive of all kinds of families. My 2 1/2 year old loves it.
