Ancient Greece And The Olympics: A Nonfiction Companion To Magic Tree House (Magic Tree House Fact Tracker)

Synopsis

Track the facts with Jack and Annie! When Jack and Annie got back from their adventure in *Magic Tree House #16: Hour of the Olympics*, they had lots of questions. What did the ancient Greeks wear? What did they do for fun? Where were the very first Olympics held? How are our modern Olympics similar to the ancient Olympics? Find out the answers to these questions and more as Jack and Annie track the facts. Filled with up-to-date information, photos, illustrations, and fun tidbits from Jack and Annie, the Magic Tree House Fact Trackers are the perfect way for kids to find out more about the topics they discovered in their favorite Magic Tree House adventures. And teachers can use Fact Trackers alongside their Magic Tree House fiction companions to meet common core text pairing needs. Have more fun with Jack and Annie on the Magic Tree House website at MagicTreeHouse.com!

Age Range: 7 - 10 years

Grade Level: 2 - 5

Customer Reviews

In a recent survey of my school students, grades K through 4, to determine their favorite book, the Magic Tree House series won hands down with a strong showing in all five grade levels. The Research Guides are an excellent addition to a library collection. The connection with Jack and

Annie is enough to hook any and all readers of the fiction series. But the research guides stand on their own as informative and fascinating reading. Fact-filled and thoroughly readable, these are excellent references for any reports as well as supplement to the fiction book for which it is companion. The table of contents and index are useful, as is a list of suggested web sites and CD-ROM's, videos, books, and even museums. Best of all are the tips for making the most of each reference, for example, take your notebook to the museum, and it isn't necessary to read the entire non-fiction book. Photographs and drawings are plentiful and right on the mark.

The Magic Tree House Fact tracker! This book is an educational book for students. Students can be informed by how great this book is. Learning about the history of how the olympics was founded was very informative. I would recommend you putting this book in your classroom. It is awesome!

As the 2010 olympics unfold in Canada I wanted to learn more about what the games are all about. Here you learn about daily life in ancient greece, Greek gods; zeus, hera, athena, and more. The olympic grounds and the different summer games. Now after reading this book in this great series I understand the olympics better. Now lets go watch the games. yeaaa.

Gave this as a gift to my grandson. They were studying Greece and the Olympics in his classroom. He read this at home each night, and discussed with his dad what they talked about at school and what he read in this book. He really loved it.

Another fantastic Magic Tree House Fact Tracker book that is filled with tons of information about Ancient Greece. This book contains a lot of information about the daily lives of Ancient Greeks, the history of Ancient Greece and some information on the Olympic Games during this time period. This book goes hand-in-hand with Magic Tree House #16: Hour of the Olympics (A Stepping Stone Book(TM)). Other Olympic Games books that could appeal to children of this age include: How the Olympics Came to Be. by Helen East, Mehrdokht Amini, Asterix at the Olympic Games, The Olympic Adventure: Magic Necklace Series (Volume 1), etc

I was so excited when I came across these 'research guides' in a used book store, they are a wonderful addition! My kids have enjoyed the series so much, but the books are a little young for some fans, but they love getting the research guide to deepen their understanding of the settings and get good background information. With the summer Olympics upcoming, I made sure to have

this research guide available before school ended.

These books make learning history fun, especially with the companion story books that can be used with them, and the Magic Tree House website even offers a few free activity pages as well. I only wish I'd discovered this series sooner for the sake of my older children!

(.....) My Summary on Ancient Greece and the Olympics 4/13/05 Book by Mary pope osborne This book is about two kids Jake and Annie are kids who like to find thing out about the Titanic, twisters, and the Olympics. In this book they want to find out about ancient Greece and the Olympics. So in this book going back in the past and try and figure out how the Olympics worked in the past. I like the book because it gives you the idea of what the people in Greece lived. The book over all the book is great. I recommend this book so that boys and girls age 10-14 can read this book. It is so great that I want to read it again.
