## Customer Reviews

This book follows the Bible story very accurately and the text is perfect for toddlers and pre-schoolers. My kids love the flaps. I highly recommend all these chunky flap books by Mary Jacobs.

My daughter ordered this book some years ago and it survived 9 children and is still being enjoyed by their foster child who is 2. I wanted this same book on hand for our youngest grandchild who just turned 1. So happy to find it still in print!

This is a small book especially good for throwing in a travel bag. The boys have fun trying to find the flaps and what animals or other things are hidden under them.

Sorry Noah ark book, I'm not impressed, not telling the history and my good reader son didn't care

about it.

Bought this for my great-grandson Noah!

While this book is informative for children, it is very small and not what I was expecting in color and creativity!

...except for all the people and animals god murders, of course. All those wicked bunnies, puppy dogs, bears and insects. All those evil men and women. All the filthy rotten pregnant women and their nasty young toddlers. No boat ride for you! They just all appear as thousands of rotting corpses on the last page. Very biblical.
