This story shows that with a little imagination, a boy and his bike can go anywhere or be anything. He can be riding on a horse, flying in a rocket, going on fabulous adventures! Just IMAGINE! :) I really like the idea of this book. It's true. I used to imagine things like this when I was old enough to ride a bike. I think this book will inspire many kids! The book is a good reading level for age 6+ but I think younger kids would like it as a read aloud. The inside of the book has cool altered pictures that make it look like the colors are coming off the picture into the white space. The interior images kind of look like a cross between a painting and a photograph. The cover photo has some of this but it isn't nearly as cool as the ones inside. I wish they would have done that with the cover. There aren't that many words on the pages so it isn't too difficult for young kids. **NOTE I got a free copy of this book in exchange for an honest review

This is a great little story for young boys. It give them all kids of ideas about all the fun adventures they can have with their bike. Perfect for getting the imagination going!

Great book!
