Customer Reviews

Great easy book for kids to read

I paid for expidited shipping and the product took 5 extra days to arrive than when it was supposed to. Seller claimed book was in "Good" condition, but book had several pictures cut out of it. That wouldn't have been so bad had the pictures that were cut out, not been part of the writing on the next page!! I boutght this book for son for a book report he had to do for school, but too much of the story was missing. On top of that, the Product Details of this book originally listed this book for ages 5-8, but this is actually more of a Kindergarten or Pre-K reading level book. This book was of absolutely no help for my son's book report, especially when there was a lot of the writing missing due to pictures being cut out of book. I do not consider a book that is cut up in "Good" condition. I would never purchase from this seller again!!

Really for a very young reader and I thought it was more for the ages pictured on the cover. My

mistake. book is of good quality but pretty basic. Had to give to 3 year old grandson for the pictures rather than 9 year old.
