Fossils (True Books: Earth Science (Paperback))

Synopsis

In the 4.6 billion years since Earth was formed, many plant and animal species have come and gone. Fossils are one of the most important tools we have for learning about long-extinct wildlife. Readers will discover how fossils are formed, how paleontologists search for them, and what kinds of information they can provide.

Book Information

Lexile Measure: 1010 (What's this?)

Series: True Books: Earth Science (Paperback)

Paperback: 48 pages

Publisher: Childrens Pr (September 1, 2012)

Language: English

ISBN-10: 0531262502

ISBN-13: 978-0531262504

Product Dimensions: 6.9 x 0.2 x 8.2 inches

Shipping Weight: 4 ounces (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 stars Â Â See all reviews Â (6 customer reviews)

Best Sellers Rank: #293,069 in Books (See Top 100 in Books) #37 in Â Books > Children's Books > Education & Reference > Science Studies > Nature > Fossils #161 in Â Books > Children's Books > Education & Reference > Science Studies > Earth Sciences #4154 in Â Books > Children's Books > Science, Nature & How It Works

Age Range: 7 - 9 years

Grade Level: 3 - 5

Customer Reviews

My children loved this book when we studied dinosaurs and fossils. I am a Montessori teacher, so we do a lot of research into the history of our world.

My granddaughter will love it. Thanks Sheila

My son loves this book.
