Customer Reviews

All politics aside, this really is a beautiful book with a wonderful message. I hope that people who dislike President Obama's choices in office will not cast aside this book without taking a look first. The pictures are absolutely incredible, and I will definitely be checking out more books that Loren Long has illustrated. I agree with some of the other reviewers that some of the examples of great Americans seem a little odd, but I appreciate the sentiments behind all of them, and I think this book could inspire young readers to learn more about some of these people. I like that there is a short bio

of each person in the back of the book, as I did not know who Jane Addams was. It is obvious that the book is trying to appeal to a wide range of people, and I think this is as it should be...the core message of the book is that our country is made up of all types of people and that we all bring different talents and ideas to the table. Some of the writing is really beautiful, but some of it does seem a little stilted, and some of the word choices make me wonder what age group this book was really written for. I hope that everyone will note that President Obama wrote this book before he was in office and that 100% of the profits are being donated to a charity for the children of disabled veterans. I think it is a hard heart indeed that could not agree that this is a beautiful book being sold for a good cause.

Aimed at young children, *Of Thee I Sing: A Letter to My Daughters* offers brief glimpses of how the contributions of a single person can touch lives, inspire others and sometimes, change the course of history. Written before he became president, Obama here chooses a baker's dozen Americans to illustrate traits such as courage, creativity and intelligence that he sees in his daughters and encourages young people to find and develop in themselves. Those chosen - including George Washington, Jackie Robinson, Billie Holliday, Cesar Chavez, Helen Keller & Sitting Bull - capture ethnic diversity and include a good balance of men and women. While the text is sparse, the President has a nice turn of phrase and the accompanying artwork by Loren Long is simply wonderful. Best of all, though, is the subject, which offers a great jumping off point for parents to talk to their children, not only about the people profiled, but of their own talents and opportunities and of the importance of contributing to society. I have something of a love affair with cover art and I just want to note that the cover of this book really appeals to me. The image of two young girls (Sasha and Malia Obama with their dog, Bo, but representative of all children) marching along with a spring in their step beautifully conveys an air of optimism and confidence - two things I long to see in all children and that our country could use more of at this time. Highly recommended.

No matter what your age, this book is simply lovely. It celebrates the potential in our children, the seeds of greatness we must nurture. The illustrations are simple and beautiful, enhancing the poetry and meaning of the text. (The illustrator is Loren Long.) The girls, clearly meant to represent Sasha and Malia, are told about the qualities they possess and then told about someone who exemplifies that quality -- that person as a child is then shown to be standing next to the girls until there's a crowd of children standing together. At the back of the book is a little more about each person represented in the book so that, hopefully, an interest in learning even more might be fostered. The

people represented are: Georgia O'Keefe, Albert Einstein, Jackie Robinson, Sitting Bull, Billie Holiday, Helen Keller, Maya Lin, Jane Addams, Dr. Martin Luther King, Neil Armstrong, Cesar Chavez, Abraham Lincoln & George Washington. The attributes honored include kindness, bravery, persistence, patriotism, honoring the sacrifices of others, and creativity. Have I told you lately how wonderful you are? How the sound of your feet running from afar brings dancing rhythms to my day? How your laugh and sunshine spills into the room? 5 stars.

This letter to the Obama daughters is inspiring for children and adults alike. This children's book is uplifting and unexpectedly informational while paying homage to thirteen icons that helped change and shape this country. The introduction to each great American visionary starts with seemingly simple words, "Have I told you. . . ?". This book is beyond creative, full of love, and well rounded. *Of Thee I Sing: A Letter to My Daughters* is diverse, promotes equality, and without a doubt has the power to inspire every person with the snippets of courageous, patriotic, and brilliant Americans. Award-winning Loren Long did an amazing job illustrating President Barack Obama's meaningful words. His artwork is simply sensational, and begins with Malia and Sasha standing by themselves when their father first asks, "Have I told you?". As Barack Obama teaches his daughters of these amazing Americans, the visuals quickly turn into the girls standing with children that reflect the strengths of the American figures previously mentioned. The illustration concept is not only heartwarming but genius, and I found myself excited to view the upcoming pages.

I was touched at how sweet the letter was written. The tender and proud words told me this was a man who truly loves his girls. I smiled at the dedication to his wife and thought a mother's fierce love is what is most needed in today's world.
