National Geographic Kids Everything Volcanoes And Earthquakes: Earthshaking Photos, Facts, And Fun!

Synopsis

National Geographic Kids Everything Volcanoes and Earthquakes explodes with incredible photos and amazing facts about the awesome powers of nature. You'll find out that three-quarters of Earth's volcanoes are underwater, that an earthquake in Chile shortened the day by 1.26 milliseconds, and much more. Bursting with fascinating information about the biggest volcanic eruptions and earth-shattering earthquakes, this book takes a fun approach to science, introducing kids to plate tectonics and the tumultuous forces brewing beneath the Earth's surface. Filled with fabulous photos and peppered with great facts, this is a must-have for all young nature lovers, sure to satisfy kids' curiosity about natural disasters and the powers of nature.

Customer Reviews

National Geographic does it again! A fund kids book with great pictures about some of the most powerful forces on earth: volcanoes and earthquakes. This book does not disappoint with phenomenal photography and has enough detail for younger kids without being overbearing and too detailed.A must for the junior geologists.

This was a gift for my son's 5th grade science class. His teacher raved about the illustrations! It has

become a wonderful addition to their class!

This is a great book with fun pictures. My 6 year old son loves volcanoes, and this book is a perfect addition to his collection!

These National Geographic books are educational with beautiful colorful pictures. Our 5 year old grandson Loves them.

The child I purchased it for read it in one night and loved it. I love his varied interesting topics.

My kindergartener loved this book - I bought it for our homeschool unit on Volcanos, and she pored over it for hours!

My pre-school aged, volcano enthusiast loves this book. It has great pictures and lots of facts for us to learn.

A must for any disaster volunteer nut like me for 45 years now. Great illustrations for teaching children.
