Tsunamis And Other Natural Disasters: A Nonfiction Companion To Magic Tree House #28: High Tide In Hawaii

Synopsis

Magic Tree House Research Guides are now Magic Tree House Fact Trackers! Track the facts with Jack and Annie! When Jack and Annie got back from their adventure in Magic Tree House #28: High Tide in Hawaii, they had lots of questions. What causes tsunamis? Who studies earthquakes? How do volcanoes form? What should people do if an avalanche hits? Find out the answers to these questions and more as Jack and Annie track the facts. Filled with up-to-date information, photos, illustrations, and fun tidbits from Jack and Annie, the Magic Tree House Fact Trackers are the perfect way for kids to find out more about the topics they discovered in their favorite Magic Tree House adventures.

Grade Level: 2 - 5

Customer Reviews

I read this book in conjunction with In2Books, a program which pairs willing adults with students in schools across the country. My student and I both enjoyed it a great deal. This is a factual book with lots of information about natural disasters both modern and historical. There are even safety suggestions for those caught in these precarious situations. An enjoyable read for me as an adult, and my fourth grade student seemed equally enthralled.

I can't tell you how many times my son has read this book since it made its way into our home.....and even now whenever we leave the house he carries all his Magic Tree house books with him... but he especially finds this one interesting. I love how out of the blue he'll say mom do you know such and such.....and...oh and mom do you know such and such....lol....and I have to admit he has actually taught me a few things. :D

My school is in South Asia, and most of my kids knew someone affected by the tsunami that hit Southeast Asia, some of them had been to sites devastated by the wave. Thus this title was of great interest to the thinkers amongst them. MPO is so good at presenting information in a format they can handle!

What a delightful experience you get with the Magic Tree House Books. Go on a magic adventure with your kids and there imaginations.Hands down winning by an easy victory for our Family!!!!!!

My 7 year old grandson LOVES these fact tracker books that are companions to the Magic Tree House Series. Interesting facts, with out being too graphic or intense. I think that they are great for helping children learn about the world around them.

this book was not one of my favorites. i am not a big fan of natural disasters. i only got the book to learn more about natural disasters. it was very interesting because i learned how these natural disasters happen. i would recomend this book to anyone who would like to learn more about tsunamis and natural disasters.

Grandson is collecting all the Magic Tree House books and guides--haven't had a chance to read this one w/him yet -- but we haven't been disappointed yet. These are great books for children -- 1st - 3rd grade level especially. The guides are more detailed than the stories --- so can read over and over at different ages and the child will understand more each time.

My first grader used this for information to supplement a book report and thoroughly enjoyed it. Kids have a fascination with natural disasters, and this book approaches it in an informative and not-too-scary way.
