Valentine, G. M. (2011). The prophet and the presidents: Ellen G. White and the processes of change, 1887-1913: A study of Ellen White's influence on the administrative leadership of the Seventh-day Adventist Church. Oshawa, Ont., Canada: Pacific Press. ISBN: 9780816324859, pp. 383. Kindle edition, \$9.99. Reviewed by Stanley E. Patterson, PhD Stanley Patterson is the Executive Director of the Christian Leadership Center and Professor of the Christian Ministry Department of Andrews University in Berrien Springs, Michigan, USA. This book exposes a period (c. 1888-1913) in Adventist history and in the life of Seventh-day Adventist prophet Ellen White that has been poorly reported and historically underexplored. Many of the episodes dealt with in the pages of this volume can be appropriately described as painful and troubling. As the Seventh-day Adventist Church matured and adopted organizational structures to deal with the complexities of growth, human nature and the predictable corruptions wrought by power and control revealed themselves in the lives of men and women charged with the sacred duty of providing spiritual leadership. The church and the ministries functioning as extensions of the church suffered the

dysfunction and at times the abuse of leadership gone awry. During these years Ellen White, though physically distanced from the General Conference leaders due to her move to Australia, remained active in bearing testimonies intended to guide and influence actions and the direction of the church.
