# Because Of An Acorn

## Synopsis

Because of an acorn, a tree grows, a bird nests, a seed becomes a flower. Enchanting die-cuts illustrate the vital connections between the layers of an ecosystem in this magical book. Wander down the forest path to learn how every tree, flower, plant, and animal connect to one another in spiraling circles of life. An acorn is just the beginning.

Age Range: 3 - 6 years

Grade Level: Preschool - Kindergarten

## Customer Reviews

While visiting my favorite independent bookstore, I love perusing their children's books. This one got my attention because I love nature books for kids. As I began flipping through the pages, I knew I was going to love it by the first page. Through simple words and gorgeous illustrations, children are shown the life-cycle of an acorn and how it affects the environment that it lives in. From the acorn to the tree to the seed to the bird to the flower to the fruit to the forest, and everything in between, all of the living things in the forest depend on each other. The illustrations are just gorgeous with almost a three-dimensional feel to them. Children will love looking at the various things on the pages and learning the cycle of life in the forest. A few of the pages have these gorgeous die-cut images that take kids from one page to the next. Even the youngest children can learn the importance of taking care of our environment and how each piece is important to the other. I can't wait to send this book off to my little great niece who I know will love reading this sweet story of an acorn. This book is a

wonderful celebration of fall for young readers.
