Very detailed and clear images. These are beautiful! I don't know how reusable they are because I haven't tried yet, but my 4 year old son is in love with them. I love all things space too, so I'm reluctant to give them up! They come in various sizes and shapes, with a few duplicates but not too repetitive. Definitely worth the price :) would purchase again

Really great value. Stickers are mostly realistic photo images and have several sizes for each image

scattered throughout sticker book. For example there are several Jupiters in different sizes. Good variety. Only a small gripe about the reusability factor. Warning: although they claim to be reusable, they are quite thin so they rip easily and are difficult to reuse, HOWEVER, when used on kraft gift bags for my intended decorative party bags, they de-stuck on their own, showing their reusable sticker quality. Not what I had hoped. Had to keep pressing them down to stay put.

A very cost effective way to get a nice lot of stickers! Colorful, glossy, nice quality. I bought a few different books from this "Eyelike" series. My kids can use them for arts and crafts/school projects. They are nice that they are in booklet size so they can just slide onto the bookshelf with the rest of the books rather than needing a special basket/box just for stickers. It says reusable but I can't attest to that aspect, we don't try to reuse them.

My 2 year old daughter loves the moon and space..these are her favorite stickers!

Perfect for my students to use when writing "sticker stories!"
