Hearing (The Five Senses)

Synopsis

Books in this series introduce readers to the five senses through simple text and vivid photographs. Each book focuses on one sense and the associated sensory organs. In *Hearing*, readers learn about different sounds they can hear, how to keep their ears safe, and how hearing aids can help some people to hear.

Age Range: 4 - 6 years

Grade Level: Preschool - 1

Customer Reviews

I teach preschool (3-5) years. My kids found this series very interesting and liked the pictures. Real photographs with real people and objects are great for children's books, opposed to illustrations or animals representing people.

I teach school. This was exactly what I needed for a lesson on the five senses.

Fantastic Reading for Information, non-fiction text for young children.

This was an excellent help when teaching about hearing.

Great
