A Sembrar Sopa De Verduras / Growing Vegetable Soup Bilingual Board Book (Spanish And English Edition)

Synopsis

"Dad says we are going to grow vegetable soup." So begins Lois Ehlert's bright, bold picture book about vegetable gardening for the very young. The necessary tools are pictured and labeled, as are the seeds (green bean, pea, corn, zucchini squash, and carrot). Then the real gardening happens . . . planting, weeding, harvesting, washing, chopping, and cooking! In the end? "It was the best soup ever." Ehlert's simple, colorful cut-paper-style illustrations are child-friendly, as is the big black type. A recipe for vegetable soup tops it all off!

Customer Reviews

Seems to be a sturdy board book. Gave to our daughter, the teacher - will see how it holds up in classes and report if any issues or not. She growing a garden with her young students and teaching them Spanish before kindergarten.

I bought the Big book version in English to read to students I do gardening with. There are always some students who speak Spanish at home. Lending out this book to them makes them feel more a part of the class. The book is plenty big enough for lap reading for two. I like the bold colors, the simple plot and the encouragement to grow your own soup.

Nice book but should have been printed on pages with white background. Difficult to see drawing detail as well as text as there is not enough contrast between colors chosen.

We give books away at work and I saw this one and liked it so bought it on for my grandson. I really like it.

I liked it. My son thought it was a boring book.. but then he likes monsters and animals.
