Grade Level: Kindergarten - 1

Customer Reviews

The only value of this book is in the reading practice a young reader might get. As for it being a resource to smart, capable young members of society, which may help them have pertinent information in a time of emergency - ZERO value. They will learn NOTHING from this book that a responsible parent hasn't already taught them. Really disappointed with this book. We will be donating it to the library, as it is of no use to our family.

My three year old is enchanted with the book. There are only about 10 'rules' presented in the book. The text is about one sentence per page. It really is aimed at younger children, probably under 5. Its a nice introduction to calling for help, bee stings, bites, scraped knees, and choking. Don't expect a rule book, but if your little one asks lots of questions and enjoys a nice non-fiction book before bedtime - I highly recommend.

loved it
