## Customer Reviews

Bought it for my three year old but i think it may be for an older child. The girl in the book is anxiety ridden and while reading it my daughter had a worried look. It definitely drives home stop drop and roll but it wasnt as upbeat as i had hoped it would be.

This book is great. My daughter finds this book very amusing in some spots where the girl is so worried about things. She says "mom, if she quits worrying she will feel so much better." It teaches kids what to do if they need to utilize stop, drop and roll in a fun and comfortable way.

This was used as a reference book. We did a picture walk. The pictures supported other material used for Fire Prevention/Fire Safety. Some of the children had seen the book at the local library which made it "cool" to be in our classroom. The book was on display in the classroom and students showed their family members the pictures that taught us to Stop, Drop and Roll. Parents were pleased with their demonstrations and ability to locate the information in the book.

I don't know about your kids, but my kids just remember stuff better if it's funny. This book is funny. Jessica worries about everything, and it's fun because YOUR kid (reading the book), knows the right answers -- YOUR reader isn't worried at all. Anyway, we do have a fire safety plan, and this book is a great reminder about all those fire safety tips.

This is a great book to teach children fire safety. This book is educational, entertaining and funny. I had to read it more than once and the illustrations are very well done.

Fun and entertaining story that helps to remember the phrase. Well written book about fire safety and not BORING to read!!!

When you are teaching children about what to do if fire gets on their clothes, this book is a must read in your home.

My 8 y.o. daughter has anxiety and she loves these books. Helps her feel not alone.
